Overview

- CLUBLOG is a web-based repository of logged QSOs
- Three user types: Clubs, DXpeditions, **individual hams**
- Extensive tool-kit to analyse QSOs and create reports
 - League tables - clubs, individuals
 - Comparisons with peers
 - Progress statistics over time, mode and band
 - Most-wanted lists, still needed entities
 - Propagation forecast, filtered DX cluster
 - Current DXpeditions list
 - Log search services and Online QSL requests (OQSR)**

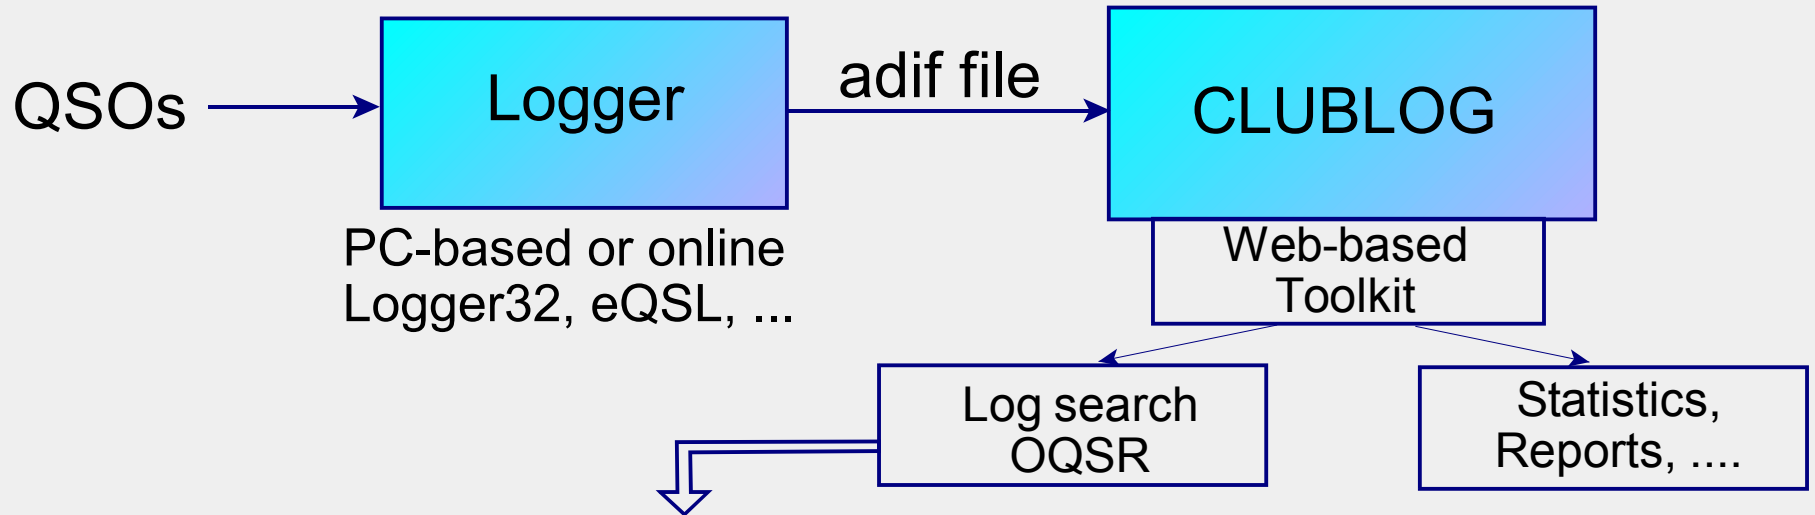

Entity	ADIF	Pfx	80	60	40	30	20	17	15	12	10	6	2
ANTARCTICA	13	CE9	W	W	W	W	W	W	0	0	0	0	0
ANTIGUA & BARBUDA	94	V2	0	0	0	0	W	0	0	0	0	0	0

ARUBA	91	P4	0	0	W	0	0	0	W	0	0	0	0

- Free registration for clubs and individuals

Focus is on web-based OQSR services as a complement to loggers and other QSL services (LOTW, eQSL, QRZ, ...)

Work Environment

Search my Log of QSOs - Request a QSL Card

QSOs are entered in the log only if successfully completed, i.e. if a pair of signal reports was exchanged successfully.
